

Institute of Cell and Molecular Science
Annual Research Day: Programme of Events
21 June 2007, Perrin Lecture Theatre, Whitechapel

TIME	SCHEDULE	SPEAKER	CHAIR
08:30 - 8:55	TEA & COFFEE (Marquee on the Mews)		Session One
	Pain and sensation		
08:55	Welcome and introduction	Professor Mike Curtis	Professor Mike Curtis
09:00	Mechanisms of visceral pain	Professor Qasim Aziz	
09:30	Molecular elements of nociception	Dr Mark Baker	
10:00	Cannabinoids in the brain	Professor David Baker	
10:30	Immune intervention in multiple sclerosis	Professor Gavin Giovannoni	
11:00 - 11:30	TEA & COFFEE (Marquee on the Mews)		Session Two
	Gene regulation		
11:30	Methylation in gene regulation	Dr Vardhman Rakyan	Professor Malcolm Alison
12:00	Telomere dysfunction in bone marrow	Dr Tom Vulliamy	
12:30	Telomere dysfunction in oral cancer	Fay Minty	
12:45 - 14:00	LUNCH (Marquee on the Mews and poster viewing)		Session Three
	Signal transduction		
14:00	PI-3 kinase and apoptosis	Professor Marco Falasca	Professor Norman Williams
14:30	Resistance of apoptosis in melanocytes	Dr Daniele Bergamaschi	
14:45	MTS24 and Epithelial Stem Cells	Dr Kristin Braun	
15:00	EGFR-ERK signalling in basal cell carcinoma	Dr Graham Neil	
15:30	The role of Gli1 in basal cell carcinoma	Tomos Williams	
15:45	Knockdown of type VII collagen in squamous cell carcinoma	Vera Martins	
16:00 - 16:30	TEA & COFFEE (Marquee on the Mews)		Session Four
	Immunity and inflammation		
16:30	Determinants of HIV infection	Professor Aine McKnight	Professor Tom MacDonald
17:00	Air pollution and infection	Dr Jonathen Grigg	
17:30	Stem Cell lineage tracing in the human pancreas and liver	Dr Mairi Brittain	
17:50	Poster Prize and drinks		
<small>(Posters will be displayed throughout the day by the Institute's MPhil/PhD students)</small>			

Sponsors will be exhibiting in the *Marquee on the Mews* throughout the day
