

# GP Refresher Course

17 – 19 October 2012

Queen Mary Innovation Centre, London E1 2AB

The course integrates theoretical and practical aspects of topical issues relevant to all working general practitioners. Speakers with acknowledged expertise in their areas discuss medical issues of national importance and highlight clinical and research developments.

We welcome General Practitioners from the UK and worldwide to this popular course that has been running for 10 years.

### *Topics for this year include*

- QIPP
- Prostate Cancer
- Colorectal Cancer
- HIV Diagnosis and Management
- Diabetes
- HRT
- COPD
- Mental health
